

# DEEPIKA K

## Frontend Developer | Vue.js & React.js | 3.5+ Years Experience

Deepisubash3003@gmail.com | [LinkedIn](#) | [Portfolio](#)

### PROFESSIONAL SUMMARY

---

Frontend-focused Software Developer with 3.5 years of experience in building responsive, high-performance web applications using Vue.js, JavaScript (ES6+), HTML5, and CSS3. Experienced in developing reusable UI components, integrating RESTful APIs using Spring Boot, and delivering scalable, user-centric solutions. Improved application performance by reducing page load time by 20% through code splitting, lazy loading, and caching strategies. Hands-on experience with Selenium automation testing and accessibility testing using JAWS. Currently strengthening React.js expertise while continuing to build clean, maintainable, and component-based user interfaces in Agile development environments.

### CORE SKILLS

---

- Frontend: Vue.js, React.js (learning), JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS
- Backend & APIs: Java, Spring Boot, Spring MVC, RESTful APIs, Microservices, Postman
- State Management: Vuex, Pinia, Redux, Context API, useReducer
- Testing & QA: Selenium Automation Testing, JAWS (Accessibility/Screen Reader Testing)
- Tools: Git, GitHub, VS Code, IntelliJ IDEA, Maven, Figma, Webpack, Vite
- Practices: Agile/Scrum, Code Reviews, CI/CD (basic), Accessibility (WCAG-aware development)

### PROFESSIONAL EXPERIENCE

---

#### Software Developer — Xmplar Management Solutions

Jan 2023 – May 2026

- Built and maintained scalable single-page applications using Vue.js and React.js, delivering responsive UI across 10+ product modules.
- Designed and developed REST APIs with Spring Boot, enabling seamless data exchange between frontend and backend systems.
- Reduced page load time by 20% through lazy loading, code-splitting, caching, and efficient state management.
- Performed automation testing using Selenium to validate UI functionality and reduce manual regression effort.
- Tested and improved application accessibility using JAWS screen reader to support WCAG compliance.
- Partnered with product and design teams to translate requirements into performant, pixel-accurate UI solutions.
- Led code reviews and mentored junior developers on clean coding standards and design patterns.
- Owned end-to-end feature delivery, from database integration and REST APIs to frontend UI/UX implementation.

### PROJECTS

---

#### Developer Portfolio Dashboard — madeIT

Vue.js/React.js, Firebase, Tailwind CSS, Spring Boot

- Built a full-featured developer dashboard with authentication, dark/light mode, and search & filter, used as a reusable internal tool.
- Integrated Spring Boot APIs with the frontend, ensuring secure, reliable data flow across the application.
- Implemented SEO optimization with react-helmet and structured the codebase for long-term scalability.
- Led UI and API integration end-to-end, ensuring a consistent and modern user experience.

#### Personal Portfolio Website

Vue.js/React.js, Tailwind CSS

- Designed and built a fully responsive portfolio site with smooth animations and mobile-first layouts.
- Optimized for performance and cross-device consistency using Tailwind CSS utility classes.

### EDUCATION

---

BTech, Information Technology — Kamaraj College of Engineering and Technology

Aug 2019 – Mar 2023
